

District 59 - Division B - BE, NE France

Toastmasters training in Brussels on August 26th 2018 - Creating effective communicators and leaders

**August 30th, 2018
Brussels, Belgium**

Toastmasters International, the leading non-profit organisation devoted to creating effective leaders and communicators, held a training and leadership development event on August 26th 2018. The training day was organised by the Division B of District 59 which includes 22 Clubs located in different cities and areas around Belgium (see [link](#)).

This event, the Club Officers Training, was attended by 80+ participants from Belgium, the North of France and the Netherlands, members and non-members of Toastmasters, seeking to improve their public speaking and leadership abilities.

Toastmasters clubs in Belgium, most of which are bilingual are open to anyone. Their members are supported to learn the arts of speaking, listening and thinking — vital skills that promote self-actualisation, enhance leadership potential and foster human understanding.

Sunday's event included a keynote speech by Marie-Bernard Guillaume, Director at Mercuri Urval, who inspired participants to use their emotional intelligence and how each of us can develop it.

Toastmasters International, with its slogan “where leaders are made”, is an organisation with a modern educational programme that contributes to the development of essential soft skills in its members.

The full agenda to the training day can be found at this [link](#).

Joining a TM Club is affordable for everyone (student, unemployed, employee, self-employed). Get in touch with a club close to your home or work, which you will find on <http://toastmasters.be> .
